1. INTRODUCTION

Crest Occupational Safety and Health Construction Support (Pty) Ltd was established in May 2012 by a group of dedicated Occupational Health and Safety Directors from the Pinnacle OSH Services Company. Targets and Objectives are focused on contractors to ensure absolute legal compliance within the OHS Act 85 of 1995 and its regulations and other legal or statutory requirements. The company has a mother company - Pinnacle OSH Services that can provide and assist Crest with a wide network of resources and individuals who enable it to provide turnkey solutions with any OHS challenge both inside South Africa as well as outside the country.

2. VISION

Our employees are dedicated to ensure our clients achieve their goals by providing a high quality Occupational Safety Health and Environmental consultancy and operational service in Regional, National and International Markets, based on continual improvement, integrity and Christian values.

3. MISSION

We as the leaders in our profession strive to deliver a honest, excellent and reliable service within the selected target market based on ethical principles. We deliver a comprehensive SHEQ service solution on a consultancy and operational basis including but not limited to;

- Contractor Management in Construction and Mining Environments
- SHEQ File/ System Development, implementation and Maintenance
- Specialized OHS Services
- Site/Needs based training and the arrangement with accredited training providers.

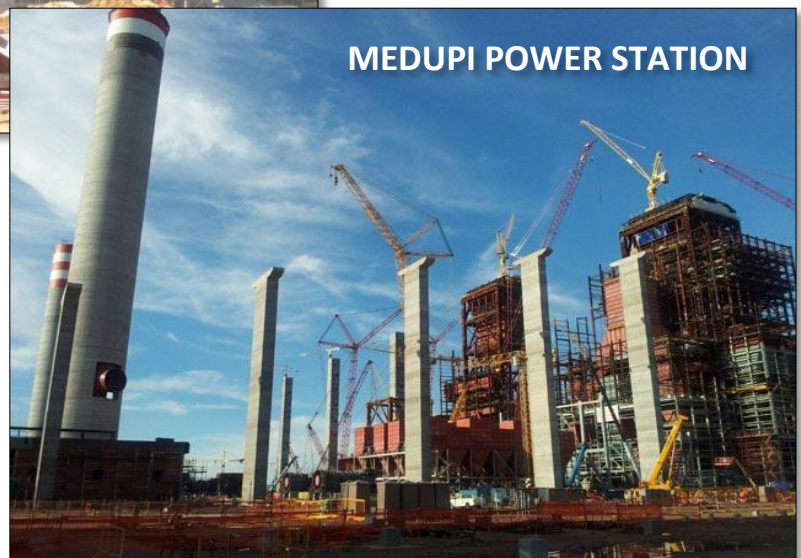

4. CAPABILITY STATEMENT

Crest Occupational Safety and Health Construction Support has access to resources with more than 175 years of experience in the field of SHEQ in various industries. Members are currently busy with registration with the South African Council for the Project and Construction Management Professions (SACPCMP) whilst others have already been registered. Members of Crest also have held top positions in NOSA, DEKRA, NORISKO, SAACOSH, COMPRAC HOLDINGS as well as top SHEQ management positions in the gold mining, building as well as civil construction industries. The owner of Crest also is currently serving as President of the Institute of Safety Management (ISOM).

Members of Crest have been involved in the SHEQ management of contractors on various projects which include, Sandton City, Eastgate, Soccer City, Virgin Active Bryanston, The Zone Rosebank, No 1 Protea Place, No 8a Protea Place, 15 Alice Lane, Absa Towers, Heineken Breweries, Inanda Greens, Grayston Shopping Centre, Northam Platinum, Gold Fields Limited Growth Project, Paviljoen Shopping Centre Durban, and various other construction projects in the building, civil and mining environments in and outside the south african border.

5. SCOPE OF SUPPLY

Crest Occupational Safety and Health Construction Support provides a comprehensive OHS service to contractors in the construction industry. The service includes compilation of OHS Files based on the requirements of legislation and site or client specifications, developing OHS Plans, Fall Protection Plans, revision and the compilation of site specific risk assessments, conduct incident investigations, legal compliance audits, physical site inspections with reports and basic site specific training as required on construction sites. Crest will also assist to arrange accredited training for clients through accredited training providers in accordance with client needs.

6. LEGAL SERVICES

Crest OHS Construction Support has access to a specialist OHS Legal consulting firm with extensive experience in providing OHS Legal advice, training and litigation. We trust that we have the skills and the experience to deliver a quality service to enhance your company SHEQ record!
